Determination of Result

- The "handicap computer" result will stand when competitions are Handicap qualifiers, otherwise the following applies:-
- Stableford : Winner determined by Total Points. In the event of a tie, then back 9 (10 through 18); then last 6; then last 3, then last hole.
- Medal : Winner determined by Total Net Score. In the event of a tie, then use back 9 less one-half playing handicap, then last 6 less one-third of playing handicap, then last 3 less one-sixth of playing handicap, then last hole less one-eighteenth of playing handicap.
- For both Medal and Stableford. If the above does not determine the winner, then continue the checks outlined above for medal & Stableford using first 9 holes, then holes 4 to 9, then holes 7 to 9, and finally hole 9. If it still remains unresolved, check hole by hole starting at 18 working up the card until a winner is found.
- The above applies even when the competition is less than 18 holes. In computing fractions of such deductions, decimal places will be used.
